Re: Water Right Change Application No. CG4-01256P@1

Dear Mr. Andrews:

First, the Department of Ecology is in receipt of your recent extension request dated March 19, 2013; for *Completion of Construction* (CC); however, it appears that Ecology has not yet received a *Beginning of Construction* form (BC), which was due by October 1, 2012, although construction has obviously begun. To that end and to complete the file, please submit the enclosed BC form to Ecology at your earliest convenience.

Second, in response to your request for an extension in the CC stage, you are hereby granted an extension to complete construction for the reason below:

- Electrical power is unable to expand to the area until much later than planned.

The new deadline to submit your *Construction Notice* is **January 1, 2017**.

Please be advised that according to the provisions in the Report of Decision, "The applicant will provide Department of Ecology with a metering plan for the existing and added purpose of use, prior to water within the existing place-of-use, consistent with the provisions of the change decision. The metering plan will ensure that water usage will not exceed No. CG4-01256P, as well as adjacent water rights used at the existing point-of-withdrawal."
